PROFESSIONAL EXPERIENCE

KPMG, San Francisco, CA | Frontend Software Engineer | 03/2022 - Present

- Developed intuitive, responsive web interfaces using **JavaScript, React, HTML, and CSS** for internal app.
- Enhanced code quality by writing **unit tests**, and **debugging** using **Jest** and Chrome DevTools, resulting in a **60% reduction in production defects** and an overall improvement in project efficiency.
- Built over 100 reusable **React** components, resulting in a **40% reduction in development time**.
- Implemented good design principles, taking designs from concept to production, resulting in improved user experience, increased **user satisfaction rate by 35%**.
- Leveraged **React Router** to optimize navigation, resulting in a **30% reduction in page load times** and a **20% increase in user engagement** due to a smoother and more efficient user flow.
- Enhanced application performance by implementing lazy loading, code splitting, and optimizing state management using **Redux** and **Context API**, leading to a **30% reduction in load times** and a smoother user experience.
- Improved page load speed surpassing WCAG and WAI-ARIA standards, resulting in a **20% increase in website traffic** and overall user satisfaction.
- Collaborated with backend engineers, product, and design teams to define technical specs and feature requirements while ensuring accessibility considerations were integrated into the development process.
- Increased accessibility across the site by implementing responsive design and accessibility features to comply with ADA regulations.

KPMG, Kyrgyzstan | Senior Consultant | 01/2018 – 03/2022

- Supervised audits for clients in finance, and mining industries, ensuring compliance with international standards, and delivering high-quality work on time and within budget, received double promotion in a year.
- Led teams of up to 10-15 professionals in planning, executing, and closing audit engagements.

EDUCATION

American University of Central Asia, Kyrgyzstan

BSc in Business Administration | Graduation Year 2018 | GPA: 3.75 / 4.00 (Magna cum laude)

Software Engineering Minor

HackReactor Bootcamp | San Francisco, CA

Frontend Development Principles | Graduation Year 2021
